Sunlite High CRI LED R20 dimmable reflector bulbs are designed to give you up to 25,000 hours of reliable service. That means fewer replacements for difficult to reach bulbs. These Energy Star Certified lamps provide the same output as a 50 watt bulb while only using 8 watts of energy. And LED technology means they are cooler to the touch and instant-on at full brightness with no warm up time. The medium (E26) base means they will fit in standard recessed lighting, track lighting, and many other fixtures. UL Listed for damp location installation.
