

Specifications

Color	3000K-6000K (other color made to order)
Wattage	15 W
Length	4ft
CRI	>80
Input Voltage	AC100-277V
Light Output	1800 lm
LED Type	SMD2835
Power Factor	>0.92
Luminous Efficiency	>120 lm/W
Emergency Time	90 minutes
Light Output on Battery	420 lm at 3.5W
Battery Operating Temperature	50°F ~ 110°F
Rated Hours	50,000 hours
Warranty	5-year

Ordering Information

LLT-4-EM-T8-G4-15W-40K	15W	4000K	4ft
LLT-4-EM-T8-G4-15W-50K	15W	5000K	4ft
LLT-4-EM-T8-G4-15W-60K	15W	6000K	4ft

Features

- 2-in-1 tube: regular T8 lighting and emergency lighting
- Manual testing button
- Automatic self-testing: 30-second test monthly and 90-minute test annually
- Self-diagnosis with flashing indicator if the battery time drops below 90 minutes
- Built-in lithium batteries
- Controllable by wall switch
- Easy battery shutoff switch for a long stocking time
- Patented

Product Compliance & Certifications:

- ETL certified for Type B (ballast bypass)
- IES Progress Report 2020 Selection
- 90 minutes battery time per industry standard

Wiring Diagram

Description

Aleddra's Gen4 Emergency T8 lamp sets another industry standard as the first self-testing/self-diagnosis T8. The lamp operates as an energy-efficient T8 during normal operation and can be turned on/off via a wall switch. During power outage, it will last over 90 minutes on battery. More importantly, the lamp will automatically self-test for 30 seconds monthly and for 90 minutes annually, thus meeting the emergency lighting audit requirements with no labor cost. This saves a facility management team a tremendous amount of labor from manually testing every single lamp of this kind in its facilities. Should any malfunction be detected during self-testing, such as insufficient battery capacity, the warning indicator on the lamp will flash and alert the team. With its labor saving, the lamp gives the end user the best return on investment and the best emergency lighting option. Please follow the installation instruction to wire the lamp.
