

Enerlites®

ANTIMICROBIAL DECORATOR SWITCH RESIDENTIAL GRADE

MODEL NO: 91150A

DESCRIPTION

The ENERLITES 91150A antimicrobial decorator switch is a cutting-edge innovation in home and office electrical fittings. Designed to enhance both functionality and hygiene, this switch incorporates advanced antimicrobial technology into its construction. By leveraging the power of antimicrobial agents, it actively inhibits the growth of bacteria, viruses, and other harmful microorganisms that may come into contact with its surface.

FEATURES

- Silver ion additive coating for antimicrobial properties
- Disinfectant surface resists microbial growth
- Smooth, quiet paddle action
- Narrow body leaves more room for wires in the box
- High-impact resistant thermoplastic construction
- Removable yoke tabs for ideal alignment
- Captive mounting screws
- Push-in terminals for quick installation
- Easy-access green hex head ground screw
- Various colors available
- Self-grounding

SPECIFICATIONS

Amperage	15 Amp
Voltage	120VAC / 277VAC
Termination	Rear Push In and Side
Actuator Material	Thermoplastic
Operating Temperature	-104° F to 167° F
Warranty	2 Years

TESTING & CODE COMPLIANCE

APPLICATIONS

- Homes
- Apartments
- Condominiums
- Offices
- Hotels
- Restaurants
