HyLite High Performance LED Lotus Lamps - Up to 60,000 hour* Rated Design Life. Outstanding Quality of Light with Energy Savings of 90% over Incandescent, 76% over HPS / MH Lamps and 66% over CFL.

**High Performance LED Lotus Lamp, 60W**

Designed for easy installation in new fixtures, existing luminaires or as a standalone fixture, HyLite LED Lotus Lamps are suitable for a wide variety of applications. They feature excellent optics for increased visibility, and Low Power Consumption. With lamp life of up to 60,000 hours, HyLite LED Lotus Lamps significantly reduce Energy Consumption and Relamping Costs, consequently decreasing Maintenance and Disposal Costs.

The HyLite LED Lotus Lamp enhances vision for better Optical Acuity, reduces Light Pollution, and provides Clean, Crisp Light. Suitable for fully enclosed Fixtures, its compact size makes it the ideal replacement for CFL, MV, HID, and HPS lamps in existing E39/EX39/E40 (Mogul) Base Fixtures.

- **Versatile** - the HyLite LED Lotus Lamp can be used with Direct Wire Connection for, Temporary or Portable Lighting. The Connectors are Water-proof.
- **Extremely Efficient**: High Lumen Efficacy: 140 lpw
- **Fully Encapsulated**: Shatter-proof, High-Shock & High-Vibration Resistant
- **High >80 CRI**: Crisp light for greater Visibility and Safety.
- **Easy Installation**: No Ballast necessary. Use as a Fixture or as a Direct Retrofit into an existing socket.
- **Instant Start and Restart**: No warm-up time required
- **Heat & Impact Resistant**, UV Protected, Non-yellowing, Optical Grade Lens
- **Excellent Thermal Management** with proprietary-designed Heat Sink
- **Cool Operation**: Does not add to Heat Load while producing brilliant light
- **Safe and Reliable**: Isolated Circuit Design. Integral 5kA/10 kV Surge Suppressor and Protection. Includes a Free 20kA in-line SPD for added Protection
- **No Electro-Magnetic (EMi) or Radio Frequency Interference (RFi)**
- **Ingress Protection**: IP65. Complete protection against Contact, Dust Infiltration and Water Splashes
- **Safe**: Contain No Hazardous Materials; RoHS Compliant: No Lead, Mercury, Toxic Metals or Arsenic Gases. No Disposal requirements. Facilitates LEED® points.
- **Environmentally Friendly**: 98% of the HyLite LED Lamp is Recyclable

*Does not include Ballast Loss, Maintenance and Replacement Lamp Savings and Disposal Costs which can amount to additional Savings of 30~50%!

**Energy Savings (%)***

- Incandescent 600W
- HPS/HID 250W
- CFL 175W
- Hylite 60W

- 90%
- 76%
- 66%

**Multiple Advantages**

- **Beam Angle**: Suitable for Enclosed Luminaires
- **Wide & Uniform**: For Enclosed Luminaires
- **Low Power**: For up to 60,000 Hours
- **Energy Costs**: Reduction of up to 90%
- **Solid State**: Vibration and Shock Resistant
- **No EMI / RFI**: Zero Interference
- **No UV / IR**: Radiation-Free No Humming
- **High Efficacy**: 140 lpw
- **Reliability**: LM-79 Test, ISTMT Test
- **Warranty**: 5 Years
- **Safe and Reliable**

*Depending upon the ambient temperature of the installation location*
- Minimum Lamp Compartment Dimensions for Enclosed Fixtures: 17.25" x 17.25" x 17.5" (436mm x 436mm x 440mm)
- Efficacy: 140 lpw
- CRI: >80
- Beam Angle: 120º
- Maximum THD (%): <20%
- Universal Input Voltage
- Power Factor: >0.9
- Protection: IP65
- Rated Life: 50~60,000 Hrs.
- Warranty: 5 Years
- Ambient Working Temperature: -22~+140ºF (-30~+60ºC)
- 3000°K and 5000°K Standard CCT. Products with 2400°-6500°K (CCT) are available as “Special Orders” only and with longer lead times
- Dimmable models available as “Special Orders” only and with longer lead times

- Ideal for high-quality illumination in:
  - High Ceilings
  - Stage Lighting
  - Accent Lighting
  - Barn Lights
  - Pendant Lights
  - Flood Lighting
  - Studio Lighting
  - Parking Garage Lights
  - Low & High Bay Lighting
  - Site Lighting
  - Explosion-proof Fixtures
  - Decorative Lighting
  - Track Lighting
  - Down Lights
  - Canopy Lights
  - Spot Lighting
  - Freezer & Cold Storage Lights
  - Driveway & Walkway Lighting

**Warning – Risk of Fire or Electric Shock**

- Disable all power to the Lamp before inspection, installation, or removal. Failure to do so will create a hazardous and fatal working environment.
- Suitable for use in Dry, Damp and Wet Locations. Lamp must be installed in accordance with National, State, and/or Local Electrical Codes. Do Not Open – No User Serviceable Parts inside.
- Operate in fixtures that provide the free flow of air around the lamp heat sink. In enclosed fixtures, ensure the lamp has enough space for heat dissipation. This will ensure lumen maintenance and extend its working life. When products are used in outdoor fixtures, ensure the space is waterproof and well ventilated.
- Not for use on a Dimmer or Remote Controls. This Lamp must be controlled only by either a Switch or an Electronic Photosensor. Do not use a Mechanical Sensor.
- Not intended for use with Emergency Exit Fixtures or Emergency Exit Lights.
- Caution: When Installing Lamps in Corrosive Environments, HyLite suggests that a High-Temperature, Moisture-Resistant, Silicone Grease or Sealant be used to protect the metal-threaded base of the LED Lamp to prevent Water and/or Moisture Incursion that can lead to premature degradation of the Lamp base and eventual Lamp failure. This is especially recommended for LED lamp installations near saltwater bodies.
- Installing Surge/Lightning Protectors is highly recommended and helps to eliminate premature Driver failure caused by Surges and Power Fluctuations.
