

KT-RDLEDXXPS-XA-9CSF-CDIM

LED RECESSED DOWNLIGHT

INSTALLATION INSTRUCTIONS

PLEASE FIND A QUALIFIED ELECTRICIAN FOR INSTALLATION. Please read the instructions before installation and use.

WARNING

- Before installing, servicing, or performing routine maintenance upon this equipment, follow these general precautions.
- Risk of fire or electric shock. LED retrofit kit installation requires knowledge of luminaire electrical systems. If not qualified, do not attempt
 installation; contact a qualified electrician.
- Risk of fire or electric shock. Install this kit only in luminaires that have the construction features and dimensions shown in the photographs and/or drawings and where the input rating of the retrofit kit does not exceed the input rating of the luminaire.
- To reduce the risk of death, personal injury or property damage from fire, electric shock, failing parts, cuts/abrasions, and other hazards, read all warnings and instructions with and on the fixture box and all fixture labels.
- Installers should not disconnect existing wires from lampholder terminals to make new
 connections at lampholder terminals. Instead, installers should cut existing lampholder leads
 away from the lampholder and make new electrical connections to lampholder lead wires by
 employing applicable connectors.
- This retrofit kit is accepted as a component of a luminaire where the suitability of the combination shall be determined by authorities having jurisdiction.
- To prevent wiring damage or abrasion, do not expose wiring to edges of sheet metal or other sharp objects.
- Do not make or alter any open holes in an enclosure of wiring or electrical components during kit installation.

WARNING

- Turn off electrical power at fuse or circuit breaker box before wiring fixture to the power supply.
- Turn off the power when you perform any maintenance.
- Verify that supply voltage is correct by comparing it with the luminaire label information.
- This device is not intended for use with emergency exits.

CAUTION

- Avoid direct eye exposure to the light source while it is on.
- Account for small parts and destroy packing material, as these may be hazardous to children.
- Risk of burn. Disconnect power and allow fixture to cool before changing bulb or handling fixture.

NOTES

- Specifications and dimensions subject to change without notice.
- Suitable for wet locations.

NOTE

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a commercial installation. This equipment generates, uses and can radiate radio interference energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

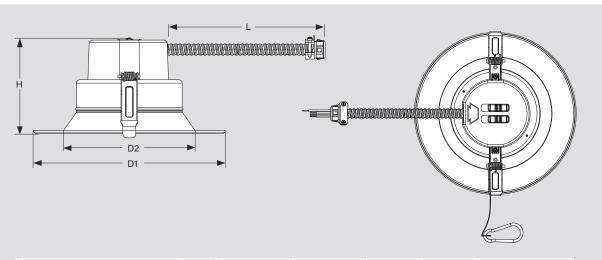

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- · Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

INSTALLATION INSTRUCTIONS

WIRING DIAGRAM

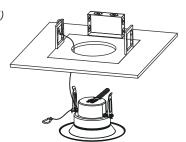

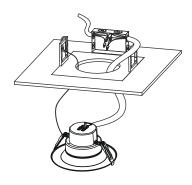

RETROFIT INSTALLATION

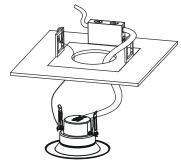

- 1. Shut off power at the source of the fixture housing into which you are installing fixture.
 - Remove existing trim, CFL or incandescent bulb.
 - Note: Follow all federal and local regulations when disposing of lamps and removed components.
- 5. Insert lamp conduit into J-box and wire to power source (see Wiring Diagram above). Reattach J-Box when done.
- 2. Measure ceiling opening to ensure that the edge of the luminaire will cover the entire opening and still sit firmly in the ceiling (see Dimensions on page 2).
- 6. Squeeze the two housing clips so they are in an upright position and then insert lamp into housing.
- 3. Select desired Wattage and CCT using adjustment switches on fixture (see Power Select (Wattage) and Color Select (CCT) Adjustment on page 2).
- 7. Once lamp is inside housing, release housing clips and continue to push lamp into housing until securely fixed and flush with ceiling. Restore power.

4. Attach carabiner safety clip to the existing fixture housing.

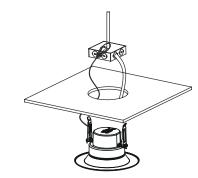

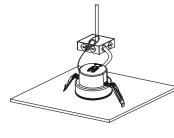

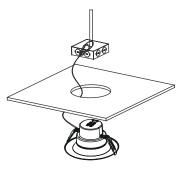

- 1. Shut off power at the source of the fixture housing into which you are installing fixture.
- 5. Insert lamp conduit into J-box and wire to power source (see Wiring Diagram above). Reattach J-box cover when done.

- 2. Create ceiling opening to ensure that the edge of the luminaire will cover the entire opening and still sit firmly in the ceiling (see Dimensions on page 2).
- 6. Squeeze the two housing clips so they are in an upright position and then insert lamp into housing
- 3. Select desired Wattage and CCT using adjustment switches on fixture (see Power Select (Wattage) and Color Select (CCT) Adjustment on page 2).
- 7. Once lamp is inside housing, release housing clips and continue to push lamp into housing until securely fixed and flush with ceiling. Restore power.

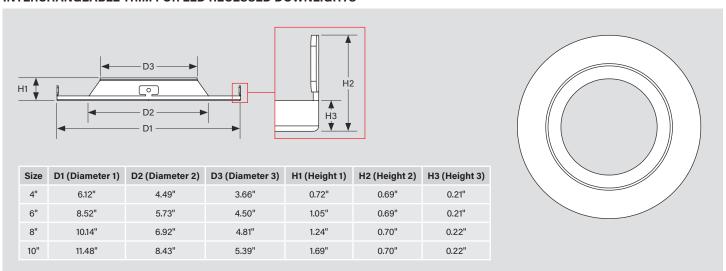

4. Attach carabiner safety clip to the existing fixture housing.

* Keystone offers an optional new-construction plate for both new joist and T-grid installations. See Optional Accessories (sold separately) on pages 6 and 7

OPTIONAL ACCESSORIES (sold separately)

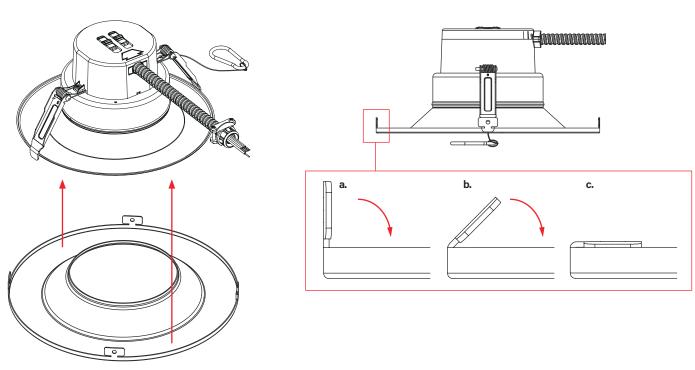

INTERCHANGEABLE TRIM FOR LED RECESSED DOWNLIGHTS

INSTALLATION

1. Clamp trim ring over fixture trim.

2. Secure trim ring to lighting fixture by bending tabs until trim ring is flush with trim.

OPTIONAL ACCESSORIES (sold separately) *continued*

NEW CONSTRUCTION PLATE FOR LED RECESSED DOWNLIGHTS

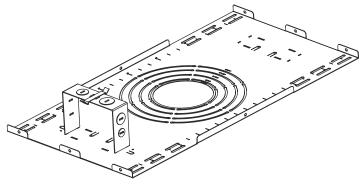

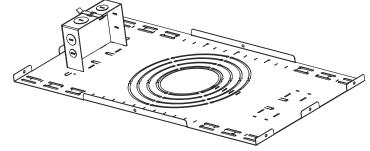

* J-Box sold separately

INSTALLATION OF J-BOX* ONTO NEW CONSTRUCTION PLATE

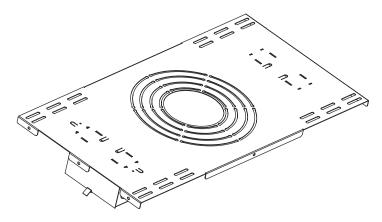

- 1. Insert bottom tabs of j-box into correct holes of plate.

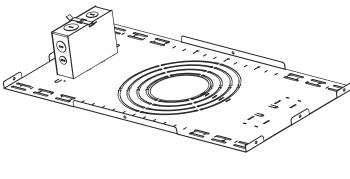

- **3.** Underneath plate, bend j-box tabs with pliers to secure j-box to plate.
- **4.** Installation complete.

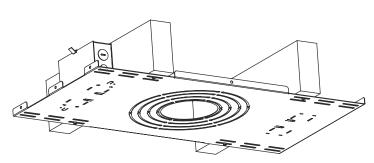

Optional Accessories continued on next page

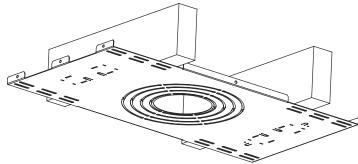

OPTIONAL ACCESSORIES (sold separately) continued

INSTALLATION OF PLATE WITH CEILING JOISTS

1. Align new construction plate with ceiling joists.

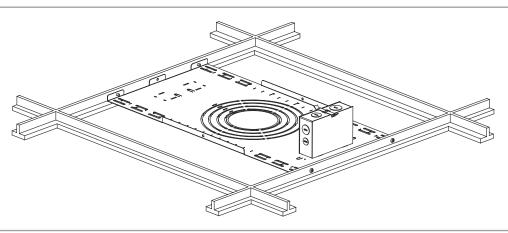

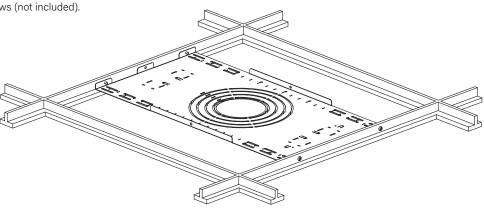

Note: Plate comes out of the box ready to be installed onto joists that have 12" or 16" spacing. To fit plate onto joists that have 24" spacing, simply bend down end tabs and screw to joists.

INSTALLATION OF PLATE WITH T-GRID
