Turn ON/OFF

## Wall Mount Instructions

**1.** Remove the 5-button controller from the cover plate by gently pulling it from the top and sliding it up through the slots. (**Figure 1**)

**2.** Use the slot at the bottom of the 5-button controller to pry open and locate the battery terminals within the enclosure. (**Figure 2**)

**3.** Insert the 2 CR2032 batteries in the respective terminals. Ensure that the batteries are secured in the contact holders and the positive side of the battery is facing upwards as shown. (**Figure 3**)

**4.** Re-attach the 5-button controller enclosure in place. (**Figure 4**)

**5.** Pry open the bottom of the cover plate assembly to detach the front cover plate from the back cover plate. (**Figure 5**)

**6.** Use the screws (**C**) provided or double-sided adhesive tape (not included, sold by others) to mount the back plate on to the wall.

**7.** Re-attach the front cover plate with the back plate and slide the 5-button controller into the cover plate assembly. Note that the switch controller cannot be attached before assembling the cover plates. (**Figure 6**)

**Note:** Blue light indicator suggests batteries are in good condition. Flashing Red light indicator suggests battery running low. Replace with 2x CR2032 batteries with the correct polarity to avoid product damage.
