

Lampholder Product Catalog

High temperature ceramic sockets

Highest quality lampholder solutions since 1968...

OSRAM SYLVANIA, the world's leading lighting innovator for over 100 years, takes pride in our record of delivering the highest quality lamp sockets to an industry that demands top performance.

Display/Optic Markets

In addition to offering a wide array of ceramic lampholders designed for high temperature lamps, the OSRAM Display/Optic Specialty Lighting group offers an ever expanding range of OSRAM branded halogen, discharge, fluorescent and incandescent lamps, along with the most innovative LED solutions in the Entertainment, Cinema, Display, Semiconductor, Industrial and Medical markets.

IMPORTANT NOTICE

The data and suggested applications contained in this catalog, as well as any additional information our representatives may be able to furnish, are for general information only and are not intended and should not be taken as representations or warranties as to the suitability of a lampholder for any particular application or use in any particular equipment, nor are our representatives authorized to make any such representations or give any such warranties. Applications and conditions of use are many and varied and beyond our control. We do not have the same degree of knowledge that the purchaser has with respect to the design of his equipment and the conditions of its use. Therefore, it is up to the purchaser to make his own determination as to the suitability of a lampholder for his intended application or use and to assume responsibility for that determination.

OSRAM SYLVANIA claims to supply the best possible products at all times. For this reason, OSRAM SYLVANIA reserves the right to make changes in its products when it believes such changes will improve its products.

The specifications and information shown in this catalog are believed to be accurate. Although OSRAM SYLVANIA believes this

information to be correct, no warranty is made or implied as to the accuracy of this information and OSRAM SYLVANIA does not accept or assume responsibility of liability for errors, changes, omissions, or for harm resulting therefrom.

In accordance with our established policy to consistently improve our products, the specifications contained herein are subject to change without notice.

OSRAM SYLVANIA lampholders are designed and manufactured to meet relevant Underwriters Laboratories (UL) and Canadian Standards Association (CSA) safety standards. Ratings may change as a result of changes made to remain compliant with modified or updated standards. OSRAM SYLVANIA will release new or updated technical bulletins when appropriate. All product data presented in this catalog supersedes all data published before March 1, 2012.

Many OSRAM SYLVANIA products listed in this catalog qualify under the North American Free Trade Agreement (NAFTA) as manufactured in Canada, the United States of America or Mexico.

Maximize the life of your lamps.

Lampholders, also referred to as 'sockets', are key drivers of performance in any lighting system, and provide a safe, reliable connection to an electrical power source.

OSRAM provides a variety of lampholders for:

- Tungsten Halogen lamps
- Metal Halide (discharge) lamps
- Incandescent lamps
- Fluorescent lamps

Features & Benefits

- High quality, long lasting lampholders specifically designed for high temperature lamps
- Variety of wire types, lead wire lengths and gauges
- Majority of types incorporate a two-piece patented contact system for superior mating with lamp contacts:
 - Solid nickel contacts and high temperature stainless steel backer springs
 - Contacts "float" inside ceramic lampholder to maximize dimensional tolerances (spacing and diameter)
 - Ceramic housing provides superior electrical and thermal insulation
- Many lampholders for metal halide (discharge) lamps are Pulse Rated for Hot Re-Strike
- OSRAM provides UL (Underwriters Laboratories) Recognized and CSA (Canadian Standards Association) Certified lampholders

Applications

ENTERTAINMENT

- Film & TV Production
- Theater, Concerts, Clubs
- Video, Photography & Studio
- Architectural/Architainment
- Houses of Worship

MEDICAL

- Surgical Overhead Lighting

GENERAL LIGHTING

- Store Displays
- Factories/Large Indoor Facilities

INDUSTRIAL

- Airfield/Aircraft
- Air/Water Purification

Stocking Program and Made-To-Order Lampholders

In addition to stocked socket inventories (marked by asterisks), OSRAM also offers a wide selection of made-to-order socket types.

Made-to-order types include options in lead length, wire gauge, and wire insulation (heat/volt rating). **Please allow up to 6 weeks for lead time.**

Custom enhancements such as mounting brackets and other hardware also available.

Please contact your OSRAM SYLVANIA representative for made-to-order and custom enhancement types. Or you can email us at lampholders@sylvania.com for details.

WIRE TYPES

Wire Type UL Standard (CSA Standard)	Insulation Description	Rating Voltage (rms)	Temperature °C
ULSFF1 (SEWF-1)	Silicon rubber with fiberglass jacket	300	150
ULSF1 (SEW-1)	Silicon rubber with fiberglass jacket	300	200
UL1180	PTFE (Teflon®)	300	200
ULSF2 (SEW-2)	Silicon rubber with fiberglass jacket	600	200
UL1199	PTFE (Teflon)	600	200
UL3512	Silicon rubber	600	200
UL3239	Silicon rubber	5000	200
UL1726	PFA (Teflon)	300	250
UL1659	PTFE (Teflon)	600	250
UL3252	Silicon rubber with fiberglass jacket	600	250
UL5256	TGGT Teflon tape with fiberglass jacket	600	250
UL5359	MGT Mica/glass tape with fiberglass jacket	600	450
UL5446	Fiberglass/Resin	600	300
UL10362	PTFE (Teflon)	600	300

ORDERING INFORMATION

When ordering please specify:

Product Number:

i.e. 69367 for GY9.5 24IN/18GA/UL3239

- Lead lengths are measured from where the wire exits the lampholder

ORDERING GUIDE

Lampholder Type	Lead (wire) Length in inches	/	Wire Gauge (AWG)	/	Wire Type Underwriters Laboratories Standard
GY9.5	24IN/		18GA/		UL3239

Don't be insecure when you "spin the bottle".

Whatever *you* call it, be sure to "refocus" your PAR lamps with the heavy-duty OSRAM PAR-1 lampholder. The durable metal casing maximizes lamp and socket life, especially under pressure.

While you are at it, try a "spin" with the OSRAM aluPAR® lamps – they're up to half the weight and 80% recyclable.

Technical drawing of a lamp base showing three views: front, side, and top.

Front View (Left): Shows a circular base with a central rectangular protrusion. The base diameter is $\phi 1.95$ (49.5mm). The central protrusion has a width of 0.3 (7.9mm). There are four mounting holes, each with a diameter of $\phi 0.144$ (36.4mm) B.C. The top view shows the circular base with a diameter of $\phi 1.95$ (49.5mm) and four mounting holes with a diameter of $\phi 0.144$ (36.4mm) B.C. The side view shows the profile of the base with a total height of 1.7 (43.2mm) and a base width of 0.3 (7.9mm). The drawing includes dimensions for the base, mounting holes, and the central protrusion.

Side View (Middle): Shows the profile of the base. The total height is 1.7 (43.2mm). The base width is 0.3 (7.9mm). The side view shows the profile of the base with a total height of 1.7 (43.2mm) and a base width of 0.3 (7.9mm).

Top View (Right): Shows the circular base with a diameter of $\phi 1.95$ (49.5mm). There are four mounting holes, each with a diameter of $\phi 0.144$ (36.4mm) B.C. The top view shows the circular base with a diameter of $\phi 1.95$ (49.5mm) and four mounting holes with a diameter of $\phi 0.144$ (36.4mm) B.C.

Dimensions:

- Base diameter: $\phi 1.95$ (49.5mm)
- Central protrusion width: 0.3 (7.9mm)
- Mounting hole diameter: $\phi 0.144$ (36.4mm) B.C.
- Base height: 1.7 (43.2mm)
- Base width: 0.3 (7.9mm)
- Mounting hole diameter: $\phi 0.144$ (36.4mm) B.C.
- Mounting hole diameter: $\phi 0.144$ (36.4mm) B.C.
- Mounting hole diameter: $\phi 0.144$ (36.4mm) B.C.
- Mounting hole diameter: $\phi 0.144$ (36.4mm) B.C.

Material and Tapping:

2X ST 3.5 DIN 7970 ALSO FOR AMERICAN STANDARD #6 SELF TAPPING SCREW TYPE AB OR B.

Notes:

- 2X $\phi 0.09$ (2.2mm)
- 2X $\phi 0.36$ (9.3mm)
- 2X $\phi 0.66$ (16.8mm)
- 2X $\phi 0.2$ (5.1mm)
- 30°

A performance this great deserves an encore.

The OSRAM TP22H socket, factory-installed socket of the Source Four® entertainment fixture, has been a star performer for years. Why would you replace it with anything less? Pair it with OSRAM HPL lamps for optimum performance.

The difference is dramatic.

TP22H Socket

69652	S7 36IN/16GA/ULSF2	AWG16/ULSF2/1 Black, 1 White	36	100 / 100

All types are made-to-order.

Add teeth to your SharXS[®] HTI[®] lamps.

The OSRAM SFc10-4 socket has a powerful grip.

Solid nickel dual contact design provides superior electrical connections, creating less heat and ensuring long socket life for multiple relampings. And the unique keylock system automatically prefocuses your SharXS HTI moving head lamps...

For accurate lamp insertion every time.

SharXS HTI Lamp
in SFc10-4 Socket

SEE THE WORLD IN A NEW LIGHT

S26

Specifications:

Maximum Wattage	3000 W
Maximum Voltage	600 V
Maximum Operating Temperature	350° C
Qualifications	UL Recognized – E31557 CSA Certified – LR20904
Body Material	Steatite / Aluminum / Plated Steel
Contact Material	Silver Plated Brass
Wire Leads	AWG 16/14, 600 V/200° C minimum
Lamp Types	Halogen and Discharge

LAMP BASE:

Recessed Single Contact
(RSC) R7 & RX7
