

FIX/GRM/EC-1-15T8 GERMICIDAL REVERSE MOTION FIX SU

Sunlite 18" UVC Linear Germicidal Fixture

UV-C radiation is a known disinfectant for air, water, and surfaces that can help mitigate the risk of acquiring an infection and has been used extensively for more than 40 years. All bacteria and viruses tested to date (many hundreds over the years, including various coronaviruses) respond to UV-C disinfection. There are no known pathogens resistant to UV-C. A clear indication that UV-C light can play a valuable part in your protection strategy. Germicidal Ultraviolet Fixtures should be utilized during periods when the area is unoccupied or when occupants take appropriate protective measures. Sunlite Germicidal Ultraviolet Fixtures are open fixtures that irradiate room air and exposed surfaces with direct germicidal rays. Germicidal LightThe unit's redundant safety systems, including an integrated occupancy sensor, ensures the unit will not activate while the room is occupied and will immediately suspend operations if motion is detected in a previously unoccupied room.

General Characteristics

Fixture Life Hours	8000 Hours
Bulb	T8
Finish	White
Life (based on 3hr/day)	7.3
Estimated Energy Cost	\$1.81 per Year
Safety Rating	Only Lampholder & Cord

Fixture Characteristics

Style	Traditional
Shape	Linear
Number of Lights	1 - Light
Bulb Included	True
Mounting	Surface
Use Location	Indoor

Electrical Characteristics

Watts	15
Volts	120/277

Product Dimensions

Size	18"
-------------	-----

Product Data

Item Number	90333-SU
Barcode on SKU	653703903330
Brand	SUNLITE
Description	FIX/GRM/EC-1-15T8
