LED technology offers reduced energy and maintenance costs when compared with conventional light sources. SYLVANIA ULTRA LED A15 lamps are perfectly suited for fan lamp applications and other applications where you want energy efficiency and sparkle from the light source. They are free of UV and IR radiation minimizing discoloration and fading of materials. These lamps are dimmable down to 10%* and are rated at 25,000 hours life with a correlated color temperature (CCT) of 2700K and 83 CRI.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. For FCC Part 15 user information, please see www.sylvania.com/fccpart15
