

LUMICOVER

NIGHTLIGHT WALLPLATE

LumiCover nightlight wallplate is the ideal way to navigate your home safely at night.

The dusk-to-dawn night light provides a subtle glow and the unique low-profile design keeps both outlets available for other items you need to power. Perfect for hallways, bathrooms, nurseries, and more!

THE FUNCTION OF A TRADITIONAL NIGHTLIGHT THAT RETAINS USE OF BOTH OUTLETS

COLORS

WHITE

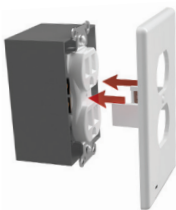

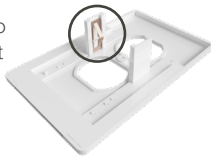

ALMOND

How it Works

Our patent pending design uses copper fins mounted on the back of the wallplate to slide onto, and connect to your outlet to power its front panel and nightlight.

NO WIRING NEEDED!

To install simply slide the LumiCover onto your outlet and attach the included wallplate screw. Be sure to turn the power off prior to installation.

FEATURES

EASY TO INSTALL

It takes the same amount of time to install the LumiCover night light wallplate as it does to install a standard switch or outlet cover.

DUSK-TO-DAWN NIGHT LIGHT

Light is projected downward and will only activate when dark, conserving energy.

LOW PROFILE DESIGN

Unlike standard, plug-in nightlights, the LumiCover night light has a slim profile and leaves both outlets free for use

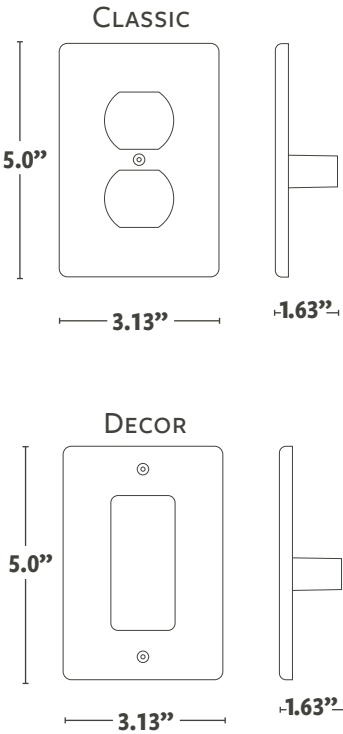

SAFE NIGHT TIME NAVIGATION

Ideal for hallways, stairways, entries, bedrooms, bathrooms, and more!
